

Model:HT101

The Fanvil HT101 is a lightweight and comfortable single sided headset designed for the intensive call center and office environments.

Slick and innovative, the HT101 delivers a crystal clear audio experience and has a noise-cancelling microphone and lightweight headband with a unique T-Bar design.

The stainless steel headband with its unique T-bar construction is easy to wear and its Boom Arm microphone bendable arm can rotate 320 degrees for proper positioning. Ideally paired with the Fanvil C01, the powerful duo is perfect for call centers.

About Fanvil Technology Co., Ltd

Fanvil Technology Co., Ltd. is a professional developer and manufacturer of VoIP products. Fanvil provides VoIP communication devices solutions for small and medium sized businesses, as well as large mission-critical enterprise environments.

Over the 11 years since its establishment, Fanvil Technology has built a strong engineering team and solid partnerships with IP communication chipset providers, such as Freescale, DSPG. Fanvil Technology is also an exclusive partner of Broadcom.
