Regulatory Information

FCC Information

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Note: This product has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This product generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this product does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Please take attention that changes or modification not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment should be installed and operated with a minimum distance 20cm between the radiator and your body.

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:

- (1) this device may not cause interference, and
- (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Under Industry Canada regulations, this radio transmitter may only operate using an antenna of a type and maximum (or lesser) gain approved for the transmitter by Industry Canada. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (e.i.r.p.) is not more than that necessary for successful communication.

EU Conformity Statement

This product and - if applicable - the supplied accessories too are marked with "CE" and comply therefore with the applicable harmonized European standards listed under the Radio Equipment Directive 2014/53/EU, the EMC Directive 2014/30/EU, the RoHS Directive 2011/65/EU.

2012/19/EU (WEEE directive): Products marked with this symbol cannot be disposed of as unsorted municipal waste in the European Union. For proper recycling, return this product to your local supplier upon the purchase of equivalent new equipment, or dispose of it at designated collection points. For more information see: www.recyclethis.info.

2006/66/EC (battery directive): This product contains a battery that cannot be disposed of as unsorted municipal waste in the European Union. See the product documentation for specific battery information. The battery is marked with this symbol, which may include lettering to indicate cadmium (Cd), lead (Pb), or mercury (Hg). For proper recycling, return the battery to your supplier or to a designated collection point. For more information see: www.recyclethis.info.

Troubleshooting

- Q:** "The device is offline." or "The device is not registered." prompts when adding the camera by EZVIZ app.
- A:**
1. Make sure the network, that the camera is connected to, is normal and the DHCP of router is enabled.
 2. Hold down the RESET button for 5 seconds to reset the parameters if you manually changed the network parameters.
- Q:** How to use the microSD card for local storage?
- A:**
1. Make sure there is a microSD card inserted and the camera is added to your EZVIZ account. Log in the EZVIZ app and enter the "Device Details" interface, if the "Initialize Storage Card" button appears, you need to initialize the microSD card first.
 2. The microSD card recording for the motion detection is enabled by default.
- Q:** The mobile phone cannot receive alarm prompts when the camera is online.
- A:**
1. Make sure the EZVIZ app is running on your mobile phone and the Motion Detection Notification is enabled.
 2. For Android system, make sure the app is running in background; and for iOS, enable the message push function in "Settings > Notification".
 3. If still no alarm prompts, hold down the RESET button for 5 seconds restore the camera settings.
- Q:** Live view or playback failed.
- A:** Make sure your network is well connected. Viewing live video needs a good bandwidth. You can refresh the video, or change a network and try again.
- Q:** How to connect to another Wi-Fi?
- A:** Hold the RESET button on the camera for 5 seconds to reset and restart the camera and reconnect the Wi-Fi about 1 minute later.
