

# NX-280DS

## 280 KG DOUBLE DOOR MAGNETIC LOCK

### KEY FEATURE

- The magnetic lock holding force 280 kg (617 Lbs)
- The power Supply 12 VDC
- LED indicator for Door Lock Status
- Signal output (NO\NC\COM)
- Anti-residual magnetism design
- Abrasion-proof materials

The NX-280DS Double Door magnetic lock is designed for use with wooden, glass, and steel doors with an opening angle of 90°. It has a maximum holding force of 280 kg (600 lbs) and can be used to control door opening and closing. The lock also features an indicator to show the door's status and supports signal output for testing the lock's status.

Model	NX-280DS
<b>Max Holding Force:</b>	280 KG (600 Lbs)
<b>Input Voltage:</b>	DC12V
<b>Working Current:</b>	12V/0.55A
<b>LED Indicator:</b>	Green : Door Locked, Red: Door Unlocked
<b>Signal Output:</b>	Dry Contact Signal Output
<b>Suitable Door Types:</b>	Wooden door, glass door, metal door, fireproof door
<b>Dimension:</b>	500L*48W*27H(mm)
<b>Weight:</b>	3.6KG
<b>Working Temperature:</b>	-10 °C to 55 °C (14 °F to 131 °F)
